POWER TO COMMUNICATE

Modular In-Vehicle Chargers

- EC chargers are available in 1, 2, 6, and 12 bay configurations.
- NiCd, NiMH and Li-Ion chemistries and can be charged with AC or DC power.
- 75 charger pods available for hundreds of radio models from all leading manufacturers. Replaceable pods mean chargers can be updated to accommodate new radios.
- Compact design take less space than most OEM chargers – critical in space constrained vehicles.

EC1M - Single unit charger with in-vehicle mounting bracket and power supply.

EC2M

Modular In-Vehicle Chargers

EC6M – Six unit charger with optional in-vehicle mounting bracket.

EC12M – 12 unit charger with optional in-vehicle mounting bracket.

POWER TO COMMUNICATE

EC Charger Accessories

Item #	Description
TWC6M-VPA	Heavy duty power adapter for use with EC1M, EC2M or EC6M.
TWC6M-HW	Hardwire kit for all EC chargers.
EC1M-MB	Floor or wall mount.
EC2M-MB	Floor or wall mount.
LEVCA-MHD	Mounting bracket for floor or angled surface.
EC6M-MB	Floor or wall mount (also fits EC12M).

TWC6M-HW

Ultra-Rugged and Compact

- Powered by 12V or 24V DC input.
- Compact design, allowing for vertical or horizontal installation.
- LEVCA passed 9 g-force test required by many fire departments.
- Unique install options. LEVC works with any RAM mount or other mounts using AMPS pattern.

Key Markets – public safety, fire, construction, utility, and any portable radio user that needs a rugged in-vehicle solution.
